INTRODUCTORY.

A New York City Business Directory of the style and character of this volume, containing 846 pages of, body matter, Index, &c., at the nominal price of *ONE DOLLAR PER COPY*, should, and no doubt will have an extraordinary large and extended circulation, not only in New York City and vicinity, but throughout the United States and Canada, and wherever it may become known, among concerns having business relations, or correspondence with New York City Houses. Its utility, value, convenience, and cheapness must be apparent to any one. We say, frankly, and without any intention to deceive the the public, that the return orders from circulars sent out by us already, and from other means being employed, justified us in estimating the aggregate circulation of the January Edition, at from fifty to sixty thousand copies.

This, the JANUARY EDITION, is an advance or extra edition of the work, the regular edition hereafter, will be issued in July. A thorough canvass of the city will be made early in May as soon as the removals are made and the people are settled in their new quarters.

We claim for this work the most complete, and best classified lists of the wholesale, manufacturing and important trades of any Business Directory of New York City ever published; auxiliary to our canvas they having been corrected and revised by leading and reputable houses in each branch of trade. We assure the public that the July Edition will be as much of an improvement as regards the minor lists of trades people, as the present lists of the wholesale and manufacturing interests are upon those published in existing works of a similar character.

This Business Directory has exceeded our early expectations and calculations in size, and its publication has been somewhat delayed in consequence.

We shall adhere to the popular price of One Dollar per copy, and maintain and improve upon the character of the work in future issues.

Every person firm or corporation, doing business in New York City or those buying goods of, or having correspondence with New York City Houses, is interested in sustaining our efforts to produce and make a success of a popular *ONE DOLLAR EDITION* of HUNT'S NEW YORK CITY BUSINESS DIRECTORY.

One Hundred Millions.

In October, 1889, The Mutual Life Insurance Company of New York reached and passed the point at which its total cash payments for Death Claims Alone amounted to

ONE HUNDRED MILLIONS OF DOLLARS.

No other beneficent institution in the world has ever accomplished like results.

A Marvelous Feature of these Payments

is the short space of time in which they were made, showing the phenomenal growth of the Mutual Life Insurance Company. It is indeed remarkable that a company starting without a dollar should

WITHIN 46 YEARS

pay for the one account of death claims over \$100,000,000.

The payments of all Life Insurance Companies naturally increase with age, and upon this rock of "increasing death rates" all co-operative societies ultimately go to pieces. The Mutual Life, however, with its constantly increasing death claims, is stronger to-day than ever.

It has paid out since 1843 for death claims	\$100,004,258 23
It has paid out since 1843 for Matured Endowments	25,969,127 83

Or a Total of	\$125,973,386 06
---------------	------------------

YET IT HOLDS FOR THE FUTURE PAYMENT OF CLAIMS OVER \$130,000,000

AND HAS

A SURPLUS OF \$8,000,000

Over and Above Every Liability.

THIS COLOSSAL RESERVE FUND

IS CONSTANTLY INCREASING.

It is a Bulwark Against all Mischance—an Evidence that the Mutual Sells

INSURANCE THAT INSURES.

**UNION
Blue Stone Co.****S. D. COYKENDALL, Pres.****SAMUEL COLES, Treas.****No. 280 Broadway, N. Y.,**

Are sole agents for all the parties who formerly quarried and dealt in Blue Stone in the Ulster and Penn. sections, called

North River Blue Stone.

This material is justly celebrated for its Fineness, Durability, Tensile Strength, etc., and is made use of for building purposes, such as Water Table and Sill Courses, Lintels, Steps, Mantels, Platforms, Coping, etc., and for Side Walks, Curbing, Gutters, Cross-walks and Tiling; for Flooring, Vats, &c., in Dye Houses and Paper Mills, and a thousand other purposes.

By reason of its density it does not absorb moisture; does not become slippery, and is not affected by acids.

Estimates furnished and orders promptly filled. Special attention given to orders for manufactured and cut stone. Orders should be sent direct to this office, or given to the Company's agent.
